

Technical Data Sheet

U106FC Clear Foils for decoration applications

Product Description

Lacquered Polyester for printed HSF Labels or Overlays.

Applications

The production of multicoloured Heat Transfer Foils.

Resistance Properties

Foil for general applications with standard resistance properties.

Characteristics

Colour	Colourless/Clear
Optical properties	Coating and polyester are clear and transparent
Carrier Gauge	23 µm PET
Release Characteristics	Medium
Print Receptivity	Foil surface generally receptive to overprinting by Silk, Offset, Flexo or XEICON digital printing inks. However, the customer should check compatibility of the ink first.

Storage conditions on separate demand

Testing the foils on original substrate is strongly recommended

NOTE: Instructions given herein are approximate and adjustment may be required in adapting materials for use in any specific application. The data presented is a result of careful and extensive research. However, since the actual conditions under which the materials may be used are beyond our control, no warranty of any kind, expressed or implied, concerning the use of the products is made.
