

Imprintable Clear Foils

U7608FC CLEAR

DESCRIPTION:

Lacquered Polyester for printed HSF Labels or Overlays.

APPLICATIONS:

The production of multicoloured Heat Transfer Foils.

RESISTANCE PROPERTIES:

Foil for applications with high resistance properties.

CHARACTERISTICS:

- Color: Clear
- Optical properties: Coating and polyester are clear and transparent.
- Carrier Gauge: 23µm
- Release characteristics: Medium
- Characteristics: Flexible coating for applications on slightly uneven surfaces
- Print Receptivity: Foil surface generally receptive to overprinting by Silk, Offset, Flexo or XEICON digital printing inks.
However the customer should check compatibility of his ink first.

GENERAL INFORMATION:

- Standard roll length and width: on request
- Labeling: Rolls labeled with: material reference, batch number and roll length. Further details upon request. Splices: Butt splice made with heat resistant blue tape.
- Packaging: Rolls on 76mm core and packed on pallets with wrapping.
- Storage: Avoid excessive heat and moisture. Do not store beside heater or in direct sunlight. Recommended temp. 0°C- 35°C .

NOTE: Instructions given herein are approximate and adjustment may be required in adapting materials for use in any specific application.
